

## SPECIFICATION SHEET

### Shoe Inn™ Fusion (SI-7150)

- Description:** The Shoe Inn™ Fusion is a stationary, non-electric automatic shoe cover dispenser that is intended for low to medium-volume uses. This stainless steel and ABS plastic machine, which holds up to 110 shoe covers in one bundle, is easily loaded in bulk, making it easy to maintain in higher volume applications. Because it does not require electricity to operate, the Shoe Inn™ Fusion can be easily deployed at any suitable location.
- Case Materials:** Stainless Steel and ABS Plastic
- Weight:** 20 lbs.
- Shoe Covers:** Holds up to 110 shoe covers in one bundle/cartridge
- Dimensions:** 27.5" l x 12.5" w x 8" h
- Power Source:** No electricity needed
